## Internet Explorer 10 – Fix site display problems with Compatibility View

The IBCSG Website cannot be displayed correctly with the Internet Explorer 10. To solve this problem, you have to turn on the **Compatibility View** Mode.

### How to turn on Compatibility View

1. See if the **Compatibility View** Button  appears in the Address bar. (If you do not see the button, there is no need to turn on **Compatibility View**).
2. Tap or click the **Compatibility View** button  to display the site in **Compatibility View**.

Once you turn on **Compatibility View**, Internet Explorer will automatically show that site in **Compatibility View** each time you visit. You can turn it off by tapping or clicking the button  again.

IBCSG

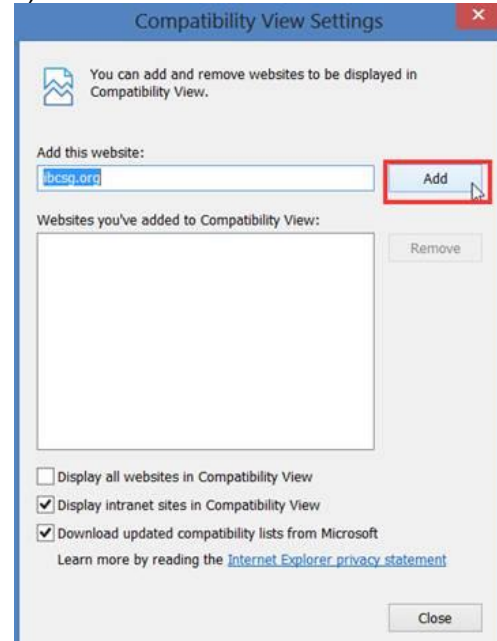

Alternatively you can change this setting via the “**Tools**” menu:

Menu „**Tools**“ → „**Compatibility View settings**“

1)

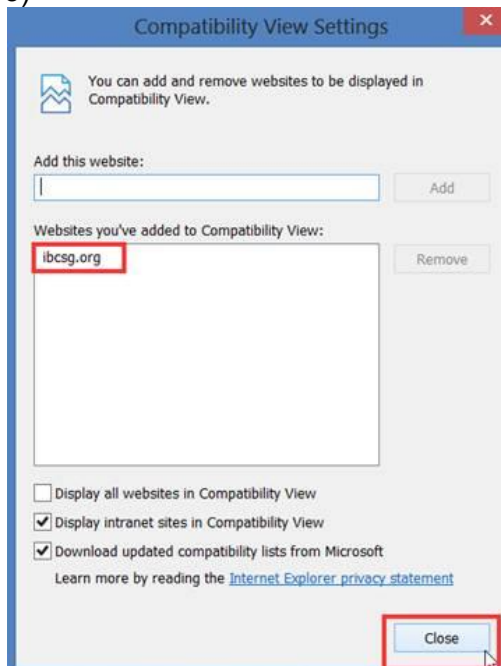

2)

At the end it should look like this:

3)

Click „**Close**“ to finish. Now the IBCSG Website will be displayed correctly.
